RIDWANUL AZIM

FULL STACK DEVELOPER

Mirpur-7, Dhaka- 1216, Bangladesh **|** redwanulazimzawad@gmail.com **|** 01339562237

PROFILE

Self-driven and Detail-oriented **Full Stack Web Developer** with practical experience in **React**, **Next.js**, Firebase, MongoDB, Tailwind CSS, Node.js, and Express.js for designing and developing user-focused, responsive applications. Experienced in integrating secure Firebase authentication, creating full-stack solutions with distinct front-end and back-end repositories, and using NoSQL (MongoDB) to manage dynamic data. Solid background in HTML, CSS, and JavaScript, along with a solid grasp of component structuring, React Router, and contemporary UI/UX concepts. I have done independent project planning and execution, efficient troubleshooting, and the creation of clear, maintainable code. Enthusiastic about improving practical web applications and lifelong learning.

EDUCATION

School   2010 — 2020

Monipur High School, Mirpur

HSC   2020 — 2022

Saint Joseph Higher Secondary School & College

BSc in CSE   2023 — Present

Brac University

TECHNICAL SKILLS

MongoDB	Python	Node.js	Next.js
React	HTML5	Git	JavaScript
Firebase	Express.js	Tailwind	REST APIs

SOFT SKILLS

Communication	Adaptibility	Time Mangement	Teamork

COURSES

Complete Web Development Course With Programming Hero, Programming Hero (2025)

PROJECTS

FitTrack Pro – Live Site

● Built a full-stack **fitness tracker platform** (MERN stack) with role-based dashboards for Admin, Trainer, and Members.

● Integrated **Stripe payments** for secure bookings, JWT authentication for route protection, and a **community forum** for member engagement.

● Designed and deployed responsive UI with **React, Tanstack Query, and Netlify/Render hosting**.

Client | Server

Plant Care Tracker – Live Site

● Developed a comprehensive plant management app with **watering reminders, health tracking, and personalized dashboards**.

● Implemented **Google/GitHub authentication**, advanced filtering/sorting, and real-time care notifications.

● Built with **React, Tailwind, Firebase, Node.js, Express, MongoDB**; deployed via Firebase.

Client | Server

JobTrack – Live Site

● Created a **job portal SPA** with secure authentication (email/password & Google) and private routes for job/company details.

● Implemented **job filtering, profile management, and real-time data handling** with smooth animations using **Framer Motion**.

● Technologies: **React, Firebase, Tailwind CSS**.
